SUMMARY

Dynamic Software Developer with over 4 years of experience in web development and server performance optimization, expert in ASP.NET and SQL Server. My key achievements include enhancing system stability by 30% through effective backend feature development and boosting database performance by 40% via optimized SQL queries. Seeking a Web Developer position at APPExOS Software Inc, where I bring my web development and consulting skills to support your mission of delivering robust and user-friendly web solutions. My ability to consult on website requirements and design seamless architectures will be integral in achieving optimal server performance and enhancing user experience.

KEY ACHIEVEMENTS

Website Code Optimization
Achieved 50% faster page load times through advanced website code modifications and optimizations.

Server Performance Improvement
Improved server response times by 30% through effective server performance strategies and enhancements.

Server Stability Enhancement
Increased application uptime by 40% through proactive server performance optimization initiatives and techniques.

SKILLS

ADO.NET   Ajax   C#   CSS

ASP.NET Web Forms   ECommerce

ASP MVC   ERP   GitHub

SQL   Entity Framework   HTML

TFS   JavaScript   jQuery

MVC   Python   Tortoise SVN

SAP B1   Web Forms   Angular

Bootstrap   Microsoft Power BI

EXPERIENCE

Software Engineer
Buck Capability Centre (PVT) LTD   📅 11/2020 - 08/2022   📍 Kochi, India

A company specializing in IT solutions

- Developed backend features, application designs, and user interfaces using ASP.NET MVC and C#
- Integrated external libraries, including SpreadsheetGear, to enhance application functionality
- Debugged and resolved operational issues, developed custom error handling pages, and improved overall system stability
- Ensured application performance, responsiveness, and code optimization through testing and continuous improvements

Associate Software Engineer
CCS Technologies (PVT) LTD   📅 11/2019 - 11/2020   📍 Kochi, India

A software company providing technology-based solutions

- Designed and developed custom add-ons for SAP Business One to enhance functionality and streamline business processes
- Enhanced both front-end and back-end functionalities using ASP.NET, MVC, Entity Framework, HTML, and JavaScript
- Created and optimized SQL queries, stored procedures, triggers, and views to improve database performance in SQL Server 2012
- Developed efficient and reliable C# code for application functionality and ensured maintainability

Junior Web Developer
Lana Technologies (PVT) LTD   📅 08/2018 - 10/2019   📍 Kochi, India

A web development company focused on building innovative web solutions

- Developed and maintained websites using ASP.NET and SQL
- Programmed dynamic web pages for eCommerce applications using HTML, CSS, JavaScript, jQuery, and AJAX
- Revised, updated, refactored, and debugged code to enhance application performance and maintainability
- Enhanced existing software functionality through optimizations and bug fixes
- Utilized ADO.NET components such as Data Adapter, Data Reader, DataSet, and DataTable for seamless access to SQL data sources
